### NATURE ELIGIBILITY IN NCPF ANNUAL COMPETITIONS

Nature means Images where living organisms are the primary subject matter. The story telling value of an Image will normally be weighed more than the pictorial quality.

Nature includes:

Nature excludes:

- Images where the subjects are obviously domestic animals or plants.

Processing of the captured image, by cropping, exposure adjustment, colour correction, noise minimisation, dodging/burning, HDR, focus stacking and sharpening, is permitted, as is cloning of image defects and minor distractions including overlapping elements.

An Image appearing to meet these criteria will be accepted as Nature. The Judges will normally assume that any Image presented to them and marked as such on the entry form is eligible.

Access to some biological subjects may be restricted. Where that is relevant, then Photographers warrant that they have followed relevant codes of practices and hold any necessary licences.
